

Ravenbridge Capital Partners

Private Equity

Building the Infrastructure of the Intelligent Economy

Firm Overview

Ecosystem-Driven Private Equity

Ravenbridge Capital Partners is a private equity platform focused on building and scaling an integrated ecosystem of companies at the intersection of critical minerals, data and power infrastructure, dual-use technologies and advanced computing (AI and quantum). The firm makes direct investments in companies that enable and benefit from the accelerating build-out of data centers, next-generation energy and secure digital infrastructure.

RCP sits within the broader Ravenbridge ecosystem, alongside Ravenbridge Capital Advisors (investment banking) and Ravenbridge critical minerals and energy entities, giving the fund differentiated access to proprietary deal flow, sector insights and commercial relationships across federal and commercial markets.

Metric	Value
Capital Deployed	\$500M+
Years Experience	30+
Core Sectors	5
Integrated Ecosystem	1

Five Pillars of Strategic Infrastructure

Sector	Focus
Critical Minerals	Energy transition, defense and advanced manufacturing supply chains
Data & Power Infrastructure	Data centers, compute and power systems for the digital economy
National Security & Dual-Use	Defense-adjacent technologies with federal and commercial applications
AI & Advanced Computing	Artificial intelligence, ML and quantum computing platforms
Energy & Power Transition	Grid modernization and sustainable power systems

Investment Approach

Ecosystem-First Value Creation

Proprietary Sourcing Deal flow generated through the Ravenbridge ecosystem: advisory relationships, trading intelligence and federal market access create opportunities unavailable to generalist funds.

Active Ownership Hands-on partnership with management teams across strategy, talent, capital structure and commercial development. Capital plus capabilities, not capital alone.

Ecosystem Integration Portfolio companies benefit from shared customers, co-development opportunities and coordinated go-to-market across the Ravenbridge entities.

Institutional Governance Risk-aware investment framework shaped by decades of managing institutional capital at organizations including the United Nations Joint Staff Pension Fund and leading global financial institutions.

The Ravenbridge Ecosystem

Entity	Role
Ravenbridge Capital Partners	Private equity fund making direct investments in critical minerals, data infrastructure, dual-use tech and advanced computing
Ravenbridge Capital Advisors	Investment banking: M&A advisory, capital markets and strategic advisory across federal and commercial markets
Critical Minerals & Energy	Strategic minerals sourcing, energy transition assets and commercial relationships generating proprietary deal flow

Leadership

Adam Phillips — Managing Partner

Adam brings decades of institutional investment experience, including leadership roles at the United Nations Joint Staff Pension Fund and major global financial institutions. His background spans capital markets, sustainable investing and institutional portfolio management, providing RCP with a disciplined, risk-aware investment framework and deep relationships across the global LP community.

Yuri Kruman — Partner, Value Creation & Human Capital

Yuri is a 3x CHRO and capital markets professional whose career spans institutional finance, private equity and high-growth venture-backed companies. From credit risk at Brown Brothers Harriman to advisory roles at Bank of America, Goldman Sachs and Fortress Investment Group, he brings RCP a differentiated value-creation lens: building the leadership teams, operating models and post-acquisition playbooks that turn portfolio investments into scalable, exit-ready businesses.
